EMERGENCY RESPONSE

WELL INTERVENTION & BLOW OUT CONTROL

Dynamic International and **CNPC- Well Emergency Services** are pleased to announce the establishment of an authorization agreement between the two companies.

Under this agreement **Dynamic International** will market and represent **CNPC Wells Emergency Services** on a global basis for all wellcontrol/blowout related projects. Thus allowing **Dynamic International** access to all **CNPC Emergency Well Control** assets, personnel and equipment.

All emergency well control response projects will be managed under and by **Dynamic International**.

This agreement allows us to establish a global footprint to introduce new technologies, methods and innovative state-of-the-art well control response equipment to our customers.

Dynamic International offers a complete integrated emergency management approach to all well control and industrial emergencies. Each of our **Dynamic** and **CNPC Well Emergency Services Team** members have years of "hands on" experience managing complex well control emergencies around the globe.
